Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1775

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 11-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Kyocera (JP 05-057507).

Kyocera discloses the claimed substrate having the claimed coating thereon, within the claimed thickness and the claimed roughness.

Applicant's arguments filed 11-03-2003 have been fully considered but they are not persuasive. The applicant's attention is directed to page 2, lines 4-13, in the electronic English translation, where the claimed roughness and the claimed structure is disclosed and thus the rejections stands.

3. Claims 11-28 are rejected under 35 U.S.C. 102(e) as being anticipated by Kutscher et al (5,945,207).

Kutscher et al discloses the claimed coating structure within the claimed thickness having the claimed roughness within the claimed blade edge ridge (column 3, line 42- column 4, line 12).

4. Claims 11-28 are rejected under 35 U.S.C. 102(e) as being anticipated by Lenander et al (5,861,210).

Lenander et al discloses the claimed coating structure within the claimed thickness and a smooth alumina coating on the claimed blade edge ridge, and thus the claimed smoothness is considered inherent.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Archene Turner whose new telephone number is (571) 272-1545. The examiner can normally be reached on Monday through Wednesday, and Friday from 10:30 am. to 6:00 pm.
